To Shareholders

The 11th Ordinary General Meeting of Shareholders
Matters for Internet Disclosure

The 11th Business Period from April, 2012 to March 31, 2013
■ Notes to Consolidated Financial Statements
■ Notes to Non-Consolidated Financial Statements

The abovementioned items are disclosed to shareholders on Renesas Electronics Corporation’s Website (http://www.renesas.com) in accordance with laws and regulation as well as Article 16 of Renesas Electronics Corporation’s Articles of Incorporation

Renesas Electronics Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Notes to Basis of Consolidated Financial Statements

1. Scope of Consolidation
All subsidiaries are consolidated.

The number of consolidated companies of Renesas Electronics Corporation Group (“the Group”): 54
The number of subsidiaries increased by foundation: 1
Renesas Tsugaru Semiconductor, Inc.
Number of subsidiaries decreased by sales and liquidation: 4
Renesas High Components, Inc.
and other 3 companies.

2. Application of Equity Method
(1) The number of affiliated companies and the name of major affiliated companies, accounted for by the equity method

The number of affiliated companies accounted for by the equity method: 3

The name of major affiliated companies accounted for by the equity method:
Renesas Easton Co., Ltd.
Renacentis IT Services Co., Ltd.
and other 1 company.

The number of affiliates decreased by stock sales: 1
Hitachi ULSI Systems Co., Ltd.

(2) The name of affiliated companies not accounted for by the equity method: Semiconductor Technology Academic Research Center (“STARC”).
The equity method is not applied to STARC because net income and retained earnings (both amounts equivalent to what is accounted for by the equity method) have little impact on the consolidated financial statements of the Company on an individual basis, nor have any material impact on them on an aggregate basis.

(3) Significant items to be noted in the procedure for applying the equity method:
Of the affiliated companies accounted for by the equity method, if the closing date differs from that of the consolidated financial statements, the financial statements prepared with the provisional closing date of March 31, 2013 (same as that of consolidated financial statements) are used.

3. Significant Accounting Policies
(1) Valuation methods for significant assets

1) Securities
   Other securities:
   Marketable securities:
   Marketable securities classified as other securities are valued at the fair value at the fiscal year-end, with unrealized gains and losses included in a component of net assets. The cost of securities sold is determined based on the moving-average method.

   Non-marketable securities:
   Non-marketable securities classified as other securities are carried at cost or amortized cost determined by the moving-average method.

2) Derivatives
   Derivative financial instruments are stated at fair value.
3) Inventories
Inventories are stated at the lower of cost or market. The costs are stated as follows:
Merchandise and finished goods:
    Custom-made products:
        Specific identification method
    Mass products:
        Average method
Work in process:
    Custom-made products:
        Specific identification method
    Mass products:
        Average method
Raw materials and supplies:
        Average method

(2) Depreciation method for significant long-term assets

1) Property, plant and equipment other than leased assets
    Depreciated principally by the straight-line method

2) Intangible assets other than leased assets
    Amortized by the straight-line method

3) Leased assets
    Leased assets under finance leases under which the ownership of the assets is transferred to the lessee
    Amortized in the same way as self-owned long-term assets
    Leased assets under finance leases other than those under which ownership of the assets is transferred to the lessee
    Amortized by the straight-line method over the lease term, assuming no residual value. The finance leases other than those under which ownership of the assets transferred to the lessee contracted before March 31, 2008 are accounted for as operating lease transactions.

4) Long-term prepaid expenses
    Amortized by the straight-line method

(3) Basis of significant reserves

1) Allowance for doubtful accounts
    Allowance for doubtful accounts is provided based on past experience for normal receivables and on an individual estimate of the collectability of receivables from companies in financial difficulty.

2) Accrued retirement benefits
    Accrued retirement benefits or prepaid pension cost are recorded for employees’ pension and severance payments based on the projected benefit obligation and the fair value of plan assets as of the fiscal year-end.
    The transitional obligation is amortized on a straight-line basis mainly over 15 years.
    Actuarial gains and losses are amortized on a straight-line basis over the employees’ estimated average remaining service periods (mainly over 14 years), starting in the following year after its occurrence.
    Prior service costs are amortized on a straight-line basis over the employees’ estimated average remaining service periods (mainly over 14 years).

3) Provision for products warranties
    The Group accrues product warranty liabilities for estimated future warranty costs using the individual estimates for the specific matters as well as historical ratio of warranty costs to net sales.

4) Provision for loss on guarantees
    Provision for loss on guarantees is made for the amount of the estimated future losses related to debt guarantees,
which the Group is taken into account for the deterioration of financial conditions.

5) Provision for business structure improvement
Provision for business structure improvement is made for the amount of the estimated losses to be incurred in connection with business structure reconstructions and consolidation.

6) Provision for contingent loss
In relation to matters such as legal proceedings and litigations, a provision for the amount of expected losses and expenses is made when they are reasonably estimated considering individual risks associated with each contingency.

(4) Foreign currency translation
Assets and liabilities denominated in foreign currencies at the balance sheet date are translated into Japanese yen at the applicable rates of exchange prevailing at the fiscal year-end, and differences arising from the translation are included in the statement of operations. Assets and liabilities of foreign subsidiaries are translated into Japanese yen at the applicable year-end rates of exchange, and all revenue and expense accounts are translated at the average rates of exchange prevailing during the period. Differences arising from the translation are presented as foreign currency translation adjustments and minority interests in net assets.

(5) Amortization method and term for goodwill
Goodwill is amortized by the straight-line method for over reasonable periods not exceeding 20 years.

(6) Accounting for consumption tax
Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

(7) Adoption of consolidated taxation system
The Company and the subsidiaries in Japan adopt the consolidated taxation system.

*Collateral and collateral liability of factories' property among collateral and collateral liability are shown in parenthesis

2. Accumulated Depreciation of Property, Plant and Equipment: 991,893 million yen

3. Accumulated Impairment Loss of Property, Plant and Equipment:
Accumulated impairment loss was included in accumulated depreciation of property, plant and equipment.

4. Contingent Liabilities:
Residual value guarantees under operating lease transactions: 1,543 million yen
Guarantees for employees’ housing loan: 546 million yen
Other guarantees: 541 million yen
Other Contingent Liabilities:
Although the Group’s subsidiary in the U.S. had been named in Canada as one of the defendants in multiple civil lawsuits related to possible violations of competition law involving DRAM brought by purchasers of such products, the subsidiary has reached a settlement with the plaintiffs.
The Group has been named in Canada as one of the defendants in multiple civil lawsuits related to possible violations of competition law involving SRAM brought by purchasers of such products.

Although the Group had been named in the Canada as one of the defendants in multiple civil lawsuits related to possible violations of competition law involving flash memory brought by purchasers of such products, the plaintiffs have withdrawn such multiple civil lawsuits.

The Group’s subsidiaries in the U.S., Europe and South Korea are the subject of investigations each by the U.S. Department of Justice, the Competition Bureau of Canada, the European Commission, and the Korea Fair Trade Commission in connection with possible violations of antitrust law/competition law related to thin-film transistor liquid crystal displays (TFT-LCDs). Among those, the European Commission imposed a fine to multiple LCD panel manufacturers in December 2010. However, the subsidiary of the Group has not been treated as a subject in the procedures. The Group’s subsidiary in the U.S. has been named in the U.S. as one of the defendants in multiple civil lawsuits related to possible violations of antitrust law involving TFT-LCDs brought by purchasers of such products.

The Group is the subject of an investigation by the European Commission regarding possible violations of competition law in relation to smartcard chips.

Notes to Consolidated Statement of Changes in Net Assets
1. Type and Number of Outstanding Shares as of March 31, 2013
   Common Stock                                               417,124,490 shares

2. Dividends
   There were no applicable items during the fiscal year ended March 31, 2013.

Notes to Financial Instruments
1. Conditions of Financial Instruments
   (1) Policies for Financial Instruments
       Regarding fund operation, the Group uses only short-term deposits and financial assets which are relatively safe. Regarding financing, the Group uses mainly borrowings from banks and corporate bonds. The Group utilizes derivative financial instruments to manage fluctuations in foreign currency exchange rates and interest payments. The Group’s policies prohibit holding or issuing derivative financial instruments for trading purposes.

   (2) Contents and Risks of Financial Instruments and Risk Management
       Notes and accounts receivable–trade and accounts receivable-other are exposed to credit risks. Conforming to internal rules for management of account receivable, the Group regularly monitors major customers’ credit and manages due dates of collection and balances by each customer.

       The management policies regarding short-term and long term investment securities are as follows; regarding short-term investment securities, the Group deals with banks with high credibility. Long-term investment securities, which the Group has relations with on business, are exposed to risks of marketable fluctuations. By regularly monitoring the fair value of the securities, financial conditions of the issuing companies and considering the relationships on business, the Group reevaluates the merit of holding the securities.

       The maturities of notes and accounts payable-trade, accounts payable-other and accrued income taxes are within one year.

       Most of short-term borrowings are for operation activities. Most of long-term borrowings and lease obligations from finance lease transactions are utilized for capital investments. Their repayment terms are within 6 years after the fiscal year-end. Some borrowings are made by variable interest exposed to interest rate movement risk. In addition, some of the borrowing contracts include financial covenants.

       The Group enters into forward exchange contracts to hedge the risks from exchange rate fluctuations of account receivables and account payables denominated in foreign currencies and interest rate swaps to hedge the risks from interest fluctuations of borrowings.

       The Group’s policies for managing derivatives are as follows; the Group conforms to internal rules for the management of derivatives and transacts only with major financial institutions to reduce credit risks.

       Because accounts payable and borrowings are exposed to liquidity risks, the headquarters and each subsidiary manage them by making financial plan.

2. Fair Value of Financial Instruments
   The fair values of financial instruments in consolidated balance sheets as of March 31, 2013 were presented below, and the table doesn’t include the financial instruments which are extremely difficult for the Group to estimate their fair values. (Note 2)

</tbody>
</table>

(*) Liabilities (credit balances) are shown in parentheses.
Assets and liabilities arising from derivatives transactions are presented on a net basis. If the net balance of derivatives is in credit, it is shown in parenthesis.

Note 1. Calculation method for fair value of financial instruments and summary of securities and derivative transactions

1. Cash and deposits, (2) Notes and accounts receivable-trade and (3) Accounts receivable-other
   These were measured at its book values because these were settled in short-term and these fair values were nearly equal to their book values.

2. Long-term investment securities
   The fair value of shares was based on market price. The fair value of bond securities was measured at its book value because it was settled in short-term and its fair value was nearly equal to its book value. The fair value of mutual fund was measured at the price presented by financial institutions.

   Their fair values were measured at its book values because these were settled in short-term and these fair values were nearly equal to its book value.

4. Long-term borrowings and (10) Lease obligations
   The fair values of long-term borrowings and lease obligations were estimated by discounting the future cash flows which includes both principals and interests. The discounts rates were considered both maturities and credit risks.

11. Derivative transactions

1. Derivatives without hedge accounting
   Derivative transactions without hedge accounting were forward exchange contracts and interest rate swaps. The fair value of forward exchange contracts were measured at the forward rate such as foreign exchange rate. The fair value of interest rate swaps were measured at the price presented by financial institutions.

2. Derivatives with hedge accounting
   None

Note 2. Non-marketable securities which are extremely difficult to estimate their fair value

<table>
<thead>
<tr>
<th>Non-marketable securities</th>

</tr>
<tr>
<td>(9) Other</td>
<td>Payment will be made on the condition that one of the Expected Allottees obtains all necessary permits and approvals from the competition authorities of relevant countries with respect to business combination and any others.</td>
</tr>
</tbody>
</table>
2. Purpose and Background of Offering

The Company has evaluated a variety of options for raising fund because the need for securing a financial base that can withstand severe and non-cyclical changes in the market conditions, for R&D, Capex and M&A activity to help earnings recovery is increasing.

As a result, the Company determined that the proposal from INCJ had the best potential to contribute to improvements in our corporate value and shareholder value from a longer-term perspective, based on a comprehensive set of considerations, including: that the proposal from INCJ is that the Company can fund the entire amount of the investment rapidly and reliably and that the Company can expect to realize business synergies with the Expected Allottees, and then the Company determined the issuance of new shares offered by way of Third-Party Allotment.

For details, please refer to the securities registration statement on issuance of new shares offered by way of third party allotment filed on December 10, 2012.

3. Specific Uses of Funds Raised

<table>

</tr>
</tbody>
</table>

2. Business structure improvement expenses

The Group reformed businesses and structures of the production along with the streamlining of employees to strengthen its financial basis, and those related expenses are shown as business structure improvement expenses.

The details of business structure improvement expenses (127,104 millions of yen) were as follows:

<table>
<thead>
<tr>
<th></th>
<th>(millions of yen)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personal expenses including the special incentive of early retirement program</td>
<td>86,054</td>
</tr>
<tr>
<td>Impairment loss</td>
<td>38,006</td>
</tr>
<tr>
<td>Other</td>
<td>3,044</td>
</tr>
<tr>
<td>Total</td>
<td>127,104</td>
</tr>
</tbody>
</table>

3. Impairment loss

The details of impairment loss for the fiscal year were as follows:

<table>
<thead>
<tr>
<th>Location</th>
<th>Usage</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chiyoda-district, Tokyo-prefecture</td>
<td>Business assets</td>
<td>Buildings and structures, Machinery and equipment, Vehicles, tools, furniture and fixtures, Construction in progress, Goodwill, Software, Other intangible assets and Long-term prepaid expenses</td>
</tr>
<tr>
<td>Taiwan etc.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Kikuchi-district, Kumamoto-prefecture</td>
<td>Assets to be disposed of</td>
<td>Buildings and structures, Machinery and equipment, Vehicles, tools, furniture and fixtures, Construction in progress, Software,</td>
</tr>
</tbody>
</table>
The Group, in principle, bases its grouping for assessing impairment loss on long-term assets on each company or place of business. However, the Group determines whether an asset should be impaired on an individual asset basis when the significant asset is considered idle or when it is to be disposed of.

Net book values of business assets with the expectation of lower profitability were reduced to the recoverable values of assets because the sum of undiscounted future cash flows was less than that of book value. Such loss amounted to 26,507 million yen which was included in special loss. The main such impairment was for mobile business, which amounted to 25,953 million yen.

Also, the Group recognized impairment loss on assets to be transferred for the purpose of reforming production structure for establishment of robust and profitable structure, and to be disposed of, which had no business use due to a decision to close or sell the product line by reducing their net book values to the recoverable values of assets because their fair value declined significantly. Such loss amounted to 12,161 million yen which was included in special loss.

The main such impairment was for Kumamoto plant (Renesas Kyushu Semiconductor Corp.), Fukui plant (Renesas Kansai Semiconductor Co., Ltd.), Hakodate plant (Renesas Northern Japan Semiconductor, Inc.) and Hokkai Electronics Co., Ltd. which totally amounted to 7,028 million yen (which Renesas decided to transfer to J-Devices Corporation) ,was for Renesas High Components, Inc. which amounted to 1,220 million yen (which was transferred to AOI ELECTRONICS CO,.LTD.) and was for Software supposed to be abandoned due to the Group’s integration of information systems which amounted to 1,952 million yen.

Also, the Group recognized impairment loss on assets to be disposed of and idle assets by reducing their net book values to the recoverable values of assets because their fair value declined significantly. Such loss amounted to 4,105 million yen which was included in special loss.

Business assets, assets to be disposed of and idle assets were amounted to 42,773 million yen for special loss.

In addition, impairment loss includes business structure improvement expenses which amounted to 38,006 million yen and impairment loss except for business structure improvement expenses which amounted to 4,767 million yen.

The details of impairment loss (42,773 million yen) were as follows:

<table>
<thead>
<tr>
<th>(In millions of yen)</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings and structures</td>
<td>4,489</td>
</tr>
<tr>
<td>Machinery and equipment</td>
<td>9,410</td>
</tr>
<tr>
<td>Vehicles, tools, furniture and fixtures</td>
<td>4,673</td>
</tr>
<tr>
<td>Construction in progress</td>
<td>1,984</td>
</tr>
<tr>
<td>Goodwill</td>
<td>2,035</td>
</tr>
<tr>
<td>Software</td>
<td>8,375</td>
</tr>
<tr>
<td>Other intangible assets</td>
<td>11,131</td>
</tr>
<tr>
<td>Long-term prepaid expenses</td>
<td>676</td>
</tr>
<tr>
<td>Total</td>
<td>42,773</td>
</tr>
</tbody>
</table>
The recoverable value of these assets was measured at net sale value or value in use. The net sale value was reasonably estimated as the appraisal amount less the necessary expenses for disposal. However, the net sale value of assets which were difficult to sell was estimated at zero. The discount rate used in the determination of the value in use was mainly 2.5% or 3.0%.

4. Implementation of an early retirement incentive program
The Company at the meeting of the Board of Directors held on March 28, 2013, resolved implementation of an early retirement incentive program.

1. Outline of the invitation for the early retirement incentive program
   The Company decided to implement the early retirement incentive program as announced on January 17, 2013, in “Renesas Electronics Announces the Implementation of Further Rationalization Initiatives, Including Optimization of the Personnel Structure” with the aim of strengthening the revenue base by improving the cost structure; speeding up decision-making; achieving increased adequacy and efficiency in our business operations; and further boosting competitiveness through measures including restructuring of the design, development, production, and sales systems in accordance with the growth strategy.

2. Outline of the early retirement incentive program
   (1) Eligible persons: Main career track employees age 40 or over of the Company and its consolidated subsidiaries in Japan
   (2) Planned number of Applicants eligible for the program: Around three thousand and several hundred
   (3) Planned Application Period: In August, 2013
   (4) Planned retirement date: September 30, 2013
   (5) Benefits: The special incentive will be added to their normal retirement payment. In addition, outplacement support will be provided through outside agencies for those who request it.

3. Impacts on the financial results
   There is no impact on consolidated financial results for the year ended March 31, 2013. And at the moment, it is very difficult to reasonably estimate the impacts of the early retirement incentive program as we have not yet started the application process.

Business Combinations
Business divestiture

(Transfer of Tsugaru plant of Renesas Northern Japan Semiconductor, Inc.)

1. Outline of the business divestiture
   (1) Name of transferee
      Fuji Electric Co., Ltd.
   (2) Nature of the divested businesses
      Wafer fabrication facility of Tsugaru Factory of Renesas Northern Japan Semiconductor, Inc. (a wholly-owned subsidiary of the Company)
   (3) Main reasons for the divestiture
      To improve in-house, front-end manufacturing efficiency by promoting larger wafers and finer process, the Company had been reviewing various measures for its manufacturing sites. As part of this ongoing review process, the Company reached an agreement to transfer Tsugaru plant to Fuji Electric Co., Ltd., who had been considering a new manufacturing facility to further expand the supply capacity of its power semiconductor business.
   (4) Date of divestiture
      July 1, 2012
   (5) Overview of transactions including statutory form
      Renesas Northern Japan Semiconductor, Inc. established a wholly-owned subsidiary, Renesas Tsugaru Semiconductor, Inc., and as of July 1, 2012 transferred the target business to Renesas Tsugaru Semiconductor, Inc. through an absorption-type separation (Kyushu-bunkatsu).
      As of the same date as above, Renesas Northern Japan Semiconductor, Inc. transferred the shares of common stock of the new company to Fuji Electric Co., Ltd. by means of stock transfer with cash consideration.
2. Overview of accounting treatment implemented

(1) Amount of loss on business transfer
Difference between consideration transferred and net assets determined by assets and liabilities pertaining to the transferred businesses immediately before the date of divestiture was recognized as loss on transfer of business for consolidated statements of operations.

(Millions of yen)
Loss on transfer of business 170

(2) Appropriate book value of assets and liabilities pertaining to the transferred businesses

(Millions of yen)

**Business Transfer of Renesas High Components, Inc.**

1. Outline of the business divestiture

(1) Name of the transferee
AOI ELECTRONICS CO., LTD.

(2) Nature of the divested businesses
Production business by commissioning of Renesas High Components, Inc., a wholly-owned subsidiary of Renesas Eastern Japan Semiconductor, Inc. (a wholly-owned subsidiary of the Company), and sales business related to such production business by commissioning, including sales staff of Renesas Eastern Japan Semiconductor, Inc.

(3) Main reasons for the divestiture
The Company had been implementing realignment of its production sites in Japan to enhance the profit base. Under these circumstances, the Company decided to transfer the production business by commissioning of Renesas High Components, Inc. and sales business related to such production business by commissioning to AOI ELECTRONICS CO., LTD., who had been considering to expand its business and to improve production efficiency, whilst also aiming to improve product development efficiency and speed for expanded operation in the future as well as having a system of backup production sites in place for times of disaster.

(4) Date of divestiture
January 1, 2013

(5) Overview of transactions including statutory form
As of January 1, 2013, Renesas Eastern Japan Semiconductor, Inc. transferred stock of Renesas High Components, Inc. and the sales business related to production business by commissioning of Renesas High Components, Inc. to AOI ELECTRONICS CO., LTD. by means of stock transfer with cash consideration and business transfer with cash consideration.

2. Overview of accounting treatment implemented

(1) Amount of loss on business transfer
Difference between consideration transferred and net assets determined by assets and liabilities pertaining to the transferred businesses immediately before the date of divestiture was recognized as loss on transfer of business for
consolidated statements of operations.

(Millions of yen)

Loss on transfer of business 37

Actual amount of loss on business transfer may fluctuate due to adjustment of consideration transferred depend on the transfer contract.

(2) Appropriate book value of assets and liabilities pertaining to the transferred businesses

(Millions of yen)

NOTES TO FINANCIAL STATEMENTS (on a non-consolidated basis)
All figures are rounded to the nearest 1 million yen.

Notes to Significant Accounting Policies

1. Valuation methods for assets

1) Securities
   Stocks of subsidiaries and affiliates:
   These stocks are carried at cost determined by the moving-average method.

   Other securities:
   Marketable securities:
   Marketable securities classified as other securities are valued at the fair value at the fiscal year-end, with
   unrealized gains and losses included in a component of net assets. The cost of securities sold is determined
   based on the moving-average method.

   Non-marketable securities:
   Non-marketable securities classified as other securities are carried at cost or amortized cost determined by the
   moving-average method.

2) Derivatives
   Derivative financial instruments are stated at fair value.

3) Inventories
   Inventories are stated at the lower of cost or market. The costs are stated as follows;
   Finished goods:
   Custom-made products:
   Specific identification method
   Mass products:
   Average method
   Work in process:
   Custom-made products:
   Specific identification method
   Mass products:
   Average method
   Raw materials and supplies:
   Average method as principal method

2. Depreciation method for long-term assets

1) Property, plant and equipment other than leased assets
   Depreciated by the straight-line method

2) Intangible assets
   Amortized by the straight-line method

3) Leased assets
   Leased assets under finance leases under which the ownership of the assets is transferred to the lessee
   Amortized in the same way as self-owned long-term assets

   Leased assets under finance leases other than those under which ownership of the assets is transferred to the
   lessee
   Amortized by the straight-line method over the lease term, assuming no residual value. The finance leases
   other than those under which ownership of the assets transferred to the lessee contracted before March 31,
   2008 are accounted for as operating lease transactions.

4) Long-term prepaid expenses
   Amortized by straight-line method
3. Basis of reserves

1) Allowance for doubtful accounts
Allowance for doubtful accounts is provided based on past experiences for normal receivables and on an individual estimate of the collectability of receivables from companies in financial difficulty.

2) Accrued retirement benefits
Accrued retirement benefits or prepaid pension cost are recorded for employees’ pension and severance payments based on the projected benefit obligation and the estimated fair value of plan assets as of the fiscal year-end.

The amount of transitional obligation succeeded from NEC Corporation is amortized on a straight-line method, proportionally allocated over the year ended March 31, 2014.

Prior service costs are amortized on a straight-line basis over the employees’ estimated average remaining service periods.

Actuarial gains and losses are amortized on a straight-line basis over the employees’ estimated average remaining service periods. The amortization starts from the following year of the gains and losses recognized.

3) Provision for products warranties
The Company accrues product warranty liabilities for estimated future warranty costs using the individual estimates for the specific matters or historical ratio of warranty costs to net sales.

4) Provision for loss on guarantees
Provision for loss on guarantees is made for the amount of the estimated future losses related to debt guarantees, which the Company is taken into account for the deterioration of financial conditions.

5) Provision for business structure improvement
Provision for business structure improvement is made for the amount of the estimated losses to be incurred in connection with business structure reconstructions and consolidation.

6) Provision for contingent loss
In relation to matters such as legal proceedings and litigations, a provision for the amount of expected losses and expenses is made when they are reasonably estimated considering individual risks associated with each contingency.

4. Accounting for consumption tax
Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

5. Adoption of consolidated taxation system
The Company adopts the consolidated taxation system.

Notes to Balance Sheet
1. Collateral and Collateral liability

(1) Collateral
