In April 2010, NEC Electronics and Renesas Technology merged to become Renesas Electronics Corporation. As a specialist semiconductor manufacturer, operations are centered on three product categories developed worldwide—Microcontroller Units (MCUs), Analog and Power Devices, and System on Chips (SoC). Anchored by the MCU Business and its world-leading market share, Renesas Electronics is stepping up marketing efforts outside Japan and in emerging markets, eyeing business expansion in “Smart Society” applications and other growth fields to become a trustworthy partner able to meet customer needs worldwide by offering highly competitive products and optimal solutions in a timely manner.

Corporate Philosophy
Harnessing our collective expertise in new technologies, Renesas Electronics contributes to a world where people and the planet prosper in harmony by realizing our vision and building our future.

Corporate Vision
We will be first to respond to customer needs worldwide with our creative power and technology innovations to become a strong, growing semiconductor manufacturer and a trustworthy partner.

3 Product Areas and Synergy Effects

- **MCU Business**
  - Renas’ core business with a world-leading share in the market

- **SoC Business**
  - Offers system solutions with leading-edge technology

- **Analog and Power Devices Business**
  - Provides products pursuing energy efficiency toward a Smart Society

25 Corporate Data/Stock Information

(FORWARD-LOOKING STATEMENTS)
The statements in this presentation with respect to the plans, strategies and forecasts of Renesas Electronics and its consolidated subsidiaries (collectively “we”) are forward-looking statements involving risks and uncertainties. We caution you in advance that actual results could differ materially from such forward-looking statements due to several factors.

The important factors that could cause actual results to differ materially from such statements include, but are not limited to: general economic conditions in our markets, which are primarily Japan, North America, Asia and Europe; demand for, and competitive pricing pressure on, our products and services in the marketplace; our ability to continue to win acceptance of our products and services in these highly competitive markets and movements in currency exchange rates, particularly the rate between the yen and the U.S. dollar. Among other factors, a worsening of the world economy; a worsening of financial conditions in the world markets, and a deterioration in the domestic and overseas stock markets, would cause actual results to differ from the projected results forecast.
